Profile

Highly motivated CompTia A+ certified computer technician. Experienced in PC repair, trouble shooting via networking and operating systems, mobile devices ,and security. Great understanding of MAC OS, Linux, Mobile OS and Windows. Proficient in connecting users to the data they need to do their jobs regardless of the devices being used. Currently completing a course with the Code Institute of Technology, capitalizing on skills in front and back-end web development utilizing JavaScript Libraries and Frameworks. I'm looking forward to utilizing my skill set in order to lead a team in developing , maintaining, and providing technological support for an information system structure for a start up company .
